

**Amendments to the Claims:**

This listing of claims will replace all prior versions and listings of claims in the application.

**Listing of Claims:**

1. (original) An arrangement structure of a door open-close device  
to automatically open and close a vehicle door by means of a driving force  
comprising:  
a roof member provided on a door-opening area for constituting a ceiling member  
of a vehicle body;  
a side member provided on the door-opening area for constituting a side portion  
of a vehicle body; and  
a gazette member provided on the door-opening area for being attached to the  
roof member and the side member so as to extend over said roof member and said side member;  
wherein said vehicle door open-close device is arranged in a space surrounded by  
said roof member, said side member, and said gazette member.
2. (original) An arrangement structure of a vehicle door open-close  
device comprising;  
said roof member including an outside roof member and an inside roof member;  
said side member including an outside side member and an inside side member;  
and  
said gazette member being attached to said roof member and said side member so  
as to extend over said roof member and said side member;

wherein said inside roof member and said inside side member are connected to a connecting part in which said outside roof member and said outside side member are connected thereto.

3. (original) The arrangement structure of a vehicle door open-close device according to claim 2, wherein a roof reinforced member provided on said roof member and a side reinforced member provided on said side member are connected to said connecting part.

4. (currently amended) The arrangement structure of a vehicle door open-close device according to claim 2 ~~or 3~~, wherein an attaching reinforcement member is provided on said inside roof member or said inside side member in which said gazette member attached thereto, and said attaching reinforced member is connected to said connecting part.
